

## COR:Mail Manager Plus

Server-Based automated email management for Lotus Notes into Opentext eDOCS

COR:Mail Manager Plus was developed to give Lotus Notes environments the flexibility to automatically archive Lotus Notes Mail directly into Opentext eDOCS.

With rules-based controls to manage all aspects of mail archiving, COR:Mail Manager Plus is the only product of its kind available for Lotus Notes & Opentext eDOCS environments.

### Key Features:

**Compliance** – with the tenets of Sarbanes-Oxley and similar legally imposed and/or mandated IT document integrity management matters.

**Auto-Profile** – automatically populates metadata into appropriate document profile fields.

**Self-Managing** – no user intervention, automatically alerts Administrator(s) of any problems or issues.

**Advanced Session Audit Tracking** – maintains log data of all transactions and/or issues for Administrator review and disposition as required.

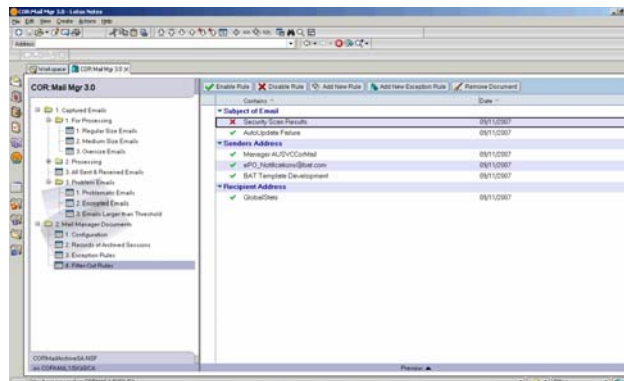

**Logs Exception Rules** – logs exception rules applied to each email together with profile information including email subject. Also logs messages evading exception rules together with associated explanations.

**Prioritized Exception Rules** – enables the prioritization of exception rules consistent with the hierarchical requirements of the organization.

**Dissemination of Messages Across Multiple DM Libraries.** – manages the capture and disposition of messages and their attachments across multiple DM/RM libraries.

**Multiple Stage Filtering** – enables repeatable “fine-tune” filtering for optimal accuracy. Also provides for filtering of messages based on size.

**Flexible Rules-Based Classification Processes** – provides unrestricted flexibility in the application of processing criteria.

**Dynamic Routing of Emails into File Plan** – profiles emails to the appropriate categories in the File Plan.

**Profiles Emails to Separate Libraries** – emails can be profiled to separate libraries based upon Exception Rules.

**Supports Additional Message Fields as Keywords for Exception Rules** – further enables the override of Exception Rules in special circumstances or situations.

### Requirements:

- COR:Mail Manager Plus Server requires Lotus Domino Server running on Microsoft Windows NT/2000/2003;
- COR:Mail Manager Plus Monitoring Station requires Lotus Notes v5.07 or later.

Server-Based automated email management for Lotus Notes into Opentext eDOCS

### About Coreedge Software

Founded in 1991, Coreedge Software Inc. is a leader in software tools designed for rapid analysis of unstructured electronic data. Coreedge provides solutions designed to handle the ever increasing volumes of unstructured information including the growing surge of electronic messages and their effect on organizations tasked with the need to maintain proper and legally defensible records systems.

Coreedge also offers:

**COR:Mail** and **COR:DB** middleware products, which seamlessly integrate Lotus Notes Mail and databases with Opentext eDOCS;

Discover why Fortune 100 companies trust COR:Mail as a proven, unparalleled, mature and stable Lotus Notes/Opentext eDOCS integration.

**Federated Search**, a simple-to-use full-text search interface permitting users to simultaneously search multiple repositories. Currently supports Symantec Enterprise Vault, Opentext eDOCS, and Microsoft Outlook Mail or Lotus Notes Mail;

**Record Profiler**, a hands-free and easy-to-train tool for automatically profiling and classifying documents based on content. Currently supports Opentext eDOCS; and

**Record Digger**, a robust, easy-to-use and readily accessible tool able to instantly expose the subject matter essence of any electronic records based on their content.

*"On behalf of our team here at British American Tobacco Australasia, I would like to extend a big thank you to your team for partnering with us on some major development work this year, and to enable our team to deliver some major project outcomes over this period. A particular mention and thanks to be extended to Support for the countless night sessions they had to endure. We also look forward to continue this successful working relationship with Coreedge into 2008 and beyond." Hue (BATA)*

*"I have to say that you guys are the most responsive vendor I have ever dealt with. Thanks!..." Chris (large fast-food chain)*

*"Before I explain my problem, hats off to all you folks. This is by far some of the fastest customer service I've ever received. Good stuff." Scott (communications center)*

*"Give the contract to Coreedge. They know what they're doing." Ian (Major North American car manufacturer)*
